## Recruitment of SI in CAPFs ASI in CISF and SI in Delhi Police Examination 2020 Paper I

Roll No.	
Candidate Name	
Venue Name	
Exam Date	25/11/2020
Exam Time	3:00 PM - 5:00 PM
Subject	SI CPO Examination 2020

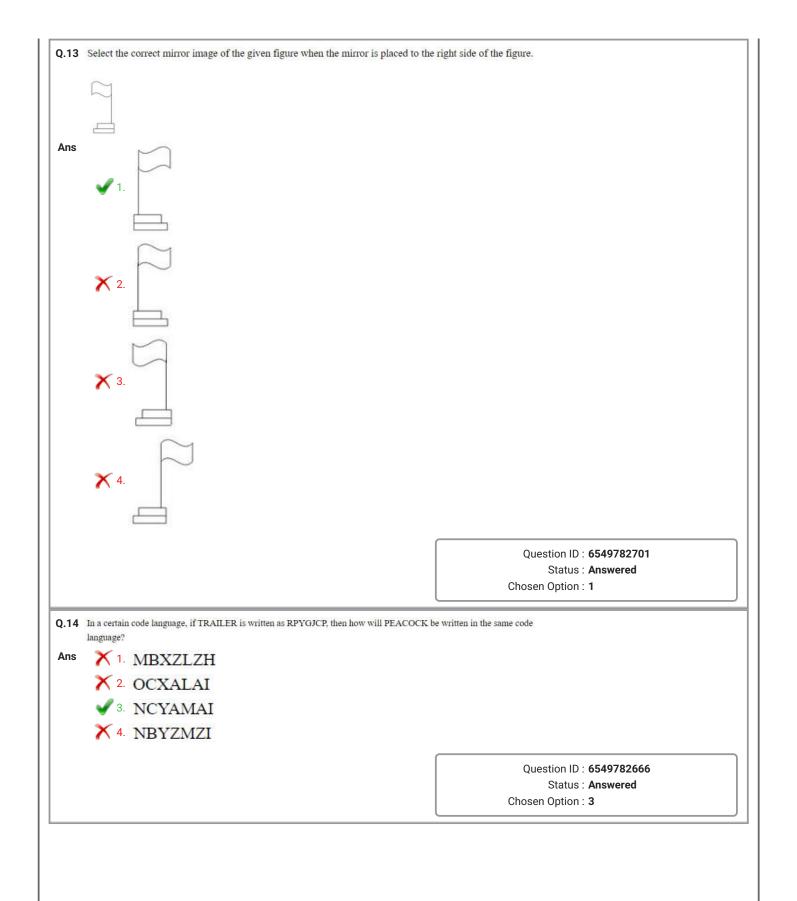

0.1	ection : General Intelligence and Reasoning			
Q.1	Study the given pattern carefully and select the number that can replace the question mark (?) in it.			
	12     9     16       9     3     27       14     ?     28			
Ans	🖌 🖌 1. 7			
	<b>X</b> 2. 11			
	∑ 3. 9			
	<b>X</b> 4. 8			
	Ouestion ID : 6549782688			
	Status : Not Answered			
		Chosen Option :		
Q.2	Pointing to a portrait of a lady, Kanika said, "Her daughter-in-law is the wife of my son's g is the lady in the portrait related to Kanika?	andfather's only son." How		
Ans	✓ <sup>1</sup> Mother-in-law			
	× 2. Mother			
	🗙 3. Paternal aunt			
	X ₄ Sister-in-law			
		Question ID : 6549782672		
		Status : Marked For Review		
	Chosen Option : 1			

Q.3	Select the correct option that indicates the arrangement of the following words as they appear in an English dictionary. 1. Boatyard		
	2. Boathouse		
	<ol> <li>Boater</li> <li>Boatman</li> </ol>		
	5. Boating		
Ans	· · · 2-3-3-1-4		
	2. 3-2-5-1-4		
	✓ <sup>3.</sup> 3-2-5-4-1		
	<b>X</b> 4. 2-3-5-4-1		
		Question ID : 6549782659	
		Status : Answered	
		Chosen Option : 3	
0.4	Which letter-cluster will replace the question mark (?) in th	e following latter series?	
	which retter-cluster will replace the question mark (?) in th	e following fetter series:	
	TWZ, VYB, XAD, ?		
Ans	X 1 ADG		
	× 2. YBE		
	X 3. ZBE		
	✓ 4. ZCF		
		Question ID : 6549782656	
		Status : <b>Answered</b> Chosen Option : <b>4</b>	
Q.5	If '*' means 'addition', '+' means 'multiplication', '+' means 'subtraction', and '- value of the following expression?	'means 'division', then what is the	
	value of the following expression:		
Ans	$16 - 4 \times 12 + 3 + 18$		
AIIS	<b>X</b> 1. 24		
	× 2. 18		
	× 3. 30		
	4. 22		
		Question ID : 6549782683	
		Status : Answered	
		Chosen Option : 4	

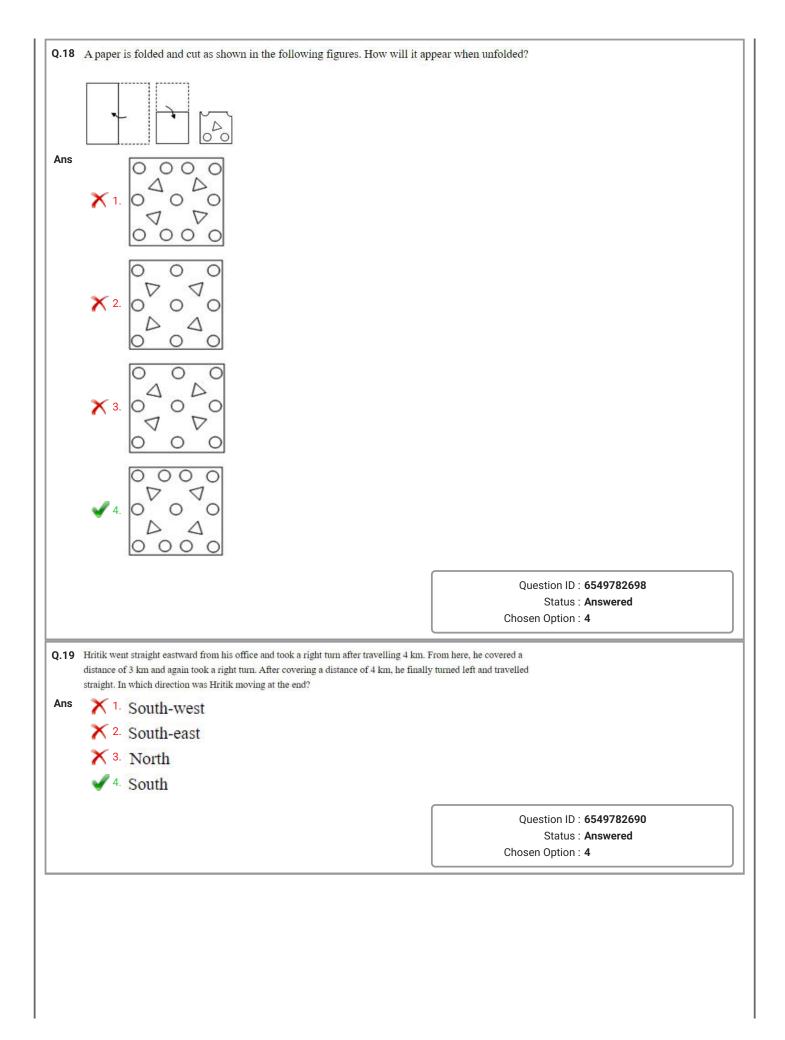

Q.6	Q.6 Select the Venn diagram that best illustrates the relationship between the following classes.		
	Teachers, Guitarists, Students		
Ans	<b>X</b> 1.		
	✓ 2. OOO		
	<b>X</b> 3. ⊘⊖		
	<b>X</b> 4.		
		Question ID : <b>6549782704</b> Status : <b>Answered</b> Chosen Option : <b>2</b>	
Q.7	Which two digits and signs can be interchanged so as to balance the	given equation?	
	$25 - 9 + 42 \div 6 \times 7 = 17$		
Ans	<b>×</b> 1. 9 and 6; + and ×		
	X 2. 2 and 5; ÷ and ×		
	✓ 3. 5 and 7; – and ÷		
	X 4. 4 and 6; + and ÷		
		Question ID : <b>6549782685</b> Status : <b>Answered</b> Chosen Option : <b>4</b>	
Q.8	Select the option in which the numbers share the same relationship as that shared by the gi	iven pair of numbers.	
	48 : 60		
Ans	11.12		
	× 2. 98 : 114 × 3. 78 : 94		
	✓ 4. 86 : 100		
		Question ID : <b>6549782682</b> Status : <b>Not Answered</b> Chosen Option :	

Q.11	<sup>1</sup> Which number will replace the question mark (?) in the following number series?		
	52 42 34 28 2		
Ans	52, 42, 34, 28, ? 1. 24		
	× 2. 22		
	<ul> <li>∧ 2. 22</li> <li>× 3. 26</li> </ul>		
	× 4. 28		
	. 20		
		Question ID : 6549782675 Status : Answered	
		Chosen Option : 1	
Q.12	Six persons P, Q, R, S, T and U were sitting around a hexagon table facing the centre. U was		
	was to the immediate left of R. S was sitting to the immediate right of U, and T was exactly by the sitting location of Q?	between P and S. What was	
Ans	➤ 1. Immediate left of P		
	2. Opposite to T		
	X 3. Opposite to S		
	X 4. Opposite to R		
		Question ID : 6549782670	
		Status : Answered	
		Chosen Option : 2	

	Which number will replace the question mark (?) in the following number series?		
	124, 140, 128, 136, 132, ?		
Ans	✓ 1. 132		
	× 2. 136		
	× 3. 130		
	<b>×</b> 4. 128		
	120		
		Question ID : 6549782677 Status : Answered	
		Chosen Option : 1	
Q.16	Which letter-cluster will replace the question mark (?) in the	following series?	
	KAP, MIN, IUR, OEL, GOT, ?		
Ans	× 1. PUJ		
	✓ 2. QAJ		
	X 3. PAK		
	$\times$ 4. QUK		
	A COR		
		Question ID : 6549782657	
		Status : <b>Not Answered</b> Chosen Option :	
		· · · · · · · · · · · · · · · · · · ·	
Q.17	A tap can fill up a tank of 1250 litres in 4 hours, whereas another tap can fill the same tank in empty that tank in 6 hours. If all the three taps are opened simultaneously, then how much tin tank completely?		
Ans	× 1. 4.2 hours		
	× 2. 5 hours		
	× <sup>3</sup> 4.5 hours		
	4. 4.8 hours		
		Question ID : 6549782681 Status : Not Answered	
		Chosen Option :	

	Two statements are given, followed by two conclusions numbered I and II. Assuming the statements to be true, even if they seem to be at variance with commonly known facts, decide which of the conclusions logically follow(s) from the statements.		
	Statements: All bats are sticks. No stick is a ball.		
	Conclusions:		
	I. No bat is a ball. II. No ball is bat.		
Ans	✗ Ⅰ. Neither conclusion I nor II follows.		
	X 2. Only conclusion I follows.		
	🗙 3. Only conclusion II follows.		
	4. Both conclusions I and II follow.		
		Question ID : 6549782674	
		Status : <b>Answered</b> Chosen Option : <b>2</b>	
Q.21	Which number will replace the question mark (?) in the follow	ing number series?	
	5, 24, 61, 122, 213, ?		
Ans	★ 1. 343		
	× 2. 337		
	<b>X</b> 2. 337		
	✗ ₃. 346		
	✗ ₃. 346	Question ID : 6549782678	
	✗ ₃. 346	Status : Not Answered	
	✗ ₃. 346

Read the given passage and answer the questions that follow.

Early written symbols were based on pictographs (pictures which resemble what they signify) and ideograms (symbols which represent ideas). Ancient Sumerian, Egyptian, and Chinese civilizations began to adapt such symbols to represent concepts, developing them into logographic writing systems. Pictographs are still in use as the main medium of written communication in some non-literate cultures in Africa, the Americas, and Oceania. Pictographs are often used as simple, pictorial, representational symbols by most contemporary cultures.

Pictographs can be considered an art form, or can be considered a written language and are designated as such in Pre-Columbian art, Native American art, Ancient Mesopotamia and Painting in the Americas before Colonization. One example of many is the Rock art of the Chumash people, part of the Native American history of California.

An early modern example of the extensive use of pictographs may be seen in the map in the London suburban timetables of the London and North Eastern Railway, 1936-1947, designed by George Dow, in which a variety of pictographs was used to indicate facilities available near each station. Pictographs remain in common use today, serving as pictorial, representational signs, instructions, or statistical diagrams. Because of their graphical nature and fairly realistic style, they are widely used to indicate public toilets, or places such as airports and train stations. Because they are a concise way to communicate a concept to people who speak many different languages, pictograms have also been used extensively at the Olympics since 1964 Summer Olympics, and are redesigned for each set of games.

Pictographs can often transcend languages in that they can communicate to speakers of a number of tongues and language families equally effectively, even if the languages and cultures are completely different. This is why road signs and similar pictographic material are often applied as global standards expected to be understood by nearly all.

A standard set of pictographs was defined in the international standard ISO 7001: Public Information Symbols. Other common sets of pictographs are the laundry symbols used on clothing tags and the chemical hazard symbols as standardised by the GHS system. Pictograms have been popularised in use on the web and in software, better known as 'icons' displayed on a computer screen in order to help users navigate a computer system or mobile device.

#### SubQuestion No : 46

# Q.46 Early civilisations used symbols to represent:

Ans X 1. art 2. facilities 3. concepts 4. culture

Early written symbols were based on pictographs (pictures which resemble what they signify) and ideograms (symbols which represent ideas). Ancient Sumerian, Egyptian, and Chinese civilizations began to adapt such symbols to represent concepts, developing them into logographic writing systems. Pictographs are still in use as the main medium of written communication in some non-literate cultures in Africa, the Americas, and Oceania. Pictographs are often used as simple, pictorial, representational symbols by most contemporary cultures.

Pictographs can be considered an art form, or can be considered a written language and are designated as such in Pre-Columbian art, Native American art, Ancient Mesopotamia and Painting in the Americas before Colonization. One example of many is the Rock art of the Chumash people, part of the Native American history of California.

An early modern example of the extensive use of pictographs may be seen in the map in the London suburban timetables of the London and North Eastern Railway, 1936-1947, designed by George Dow, in which a variety of pictographs was used to indicate facilities available near each station. Pictographs remain in common use today, serving as pictorial, representational signs, instructions, or statistical diagrams. Because of their graphical nature and fairly realistic style, they are widely used to indicate public toilets, or places such as airports and train stations. Because they are a concise way to communicate a concept to people who speak many different languages, pictograms have also been used extensively at the Olympics since 1964 Summer Olympics, and are redesigned for each set of games.

Pictographs can often transcend languages in that they can communicate to speakers of a number of tongues and language families equally effectively, even if the languages and cultures are completely different. This is why road signs and similar pictographic material are often applied as global standards expected to be understood by nearly all.

A standard set of pictographs was defined in the international standard ISO 7001: Public Information Symbols. Other common sets of pictographs are the laundry symbols used on clothing tags and the chemical hazard symbols as standardised by the GHS system. Pictograms have been popularised in use on the web and in software, better known as 'icons' displayed on a computer screen in order to help users navigate a computer system or mobile device.

#### SubQuestion No: 47

Ans

Q.47 Pictographs are used in Olympic games because:

- X 1. they are the main medium of written communication
  - 2. they can transcend languages and convey information effectively
  - X 3. they can help to navigate computer systems
- X 4. they can be redesigned for each set of games

Question ID : **6549782855** Status : **Answered** Chosen Option : **4** 

Read the given passage and answer the questions that follow.

Early written symbols were based on pictographs (pictures which resemble what they signify) and ideograms (symbols which represent ideas). Ancient Sumerian, Egyptian, and Chinese civilizations began to adapt such symbols to represent concepts, developing them into logographic writing systems. Pictographs are still in use as the main medium of written communication in some non-literate cultures in Africa, the Americas, and Oceania. Pictographs are often used as simple, pictorial, representational symbols by most contemporary cultures.

Pictographs can be considered an art form, or can be considered a written language and are designated as such in Pre-Columbian art, Native American art, Ancient Mesopotamia and Painting in the Americas before Colonization.
