In this question, a passage and a statement related to it have been given. Read the passage carefully and criticize the statement based on it.

India invites Chinese telecom giant Huyyai Technologies - a company which has been banned by calling America as a threat to its cyber security, and security and technology establishments expressed concern in Australia and New Zealand, from which 5G networks were created to participate in 5G tests. is. Although there have been some changes in Indian conditions in the last decade but still there is not enough security measures in the telecom sector in India, which is the backbone of the digital economy. The only thing that has changed is the technology standard - earlier it was in the form of fear of using Chinese 3G devices in spyware and now Chinese 5G devices.

To address these alleged safety hazards, experts have suggested two ways that can be used by the government. First, establishment of infrastructure to test and identify the vulnerabilities of telecommunication equipment installed in the country. Second, developing the ability to build important hardware components in the country. Officials say that they have not been implemented in India so far. He also informed that the Department of Telecom had pledged to investigate the safety devices in 2013. Imports of China's telecommunications equipment increased from \$ 1.3 billion in 2014 to \$ 9.4 billion in 2017, along with various mobile phone accessories.

Statement: India has adopted both of the policies suggested by experts to protect against security threats.

Select the appropriate from the given options

Two statements and two conclusions have been given in this question. Assuming the truth of the statement, you have to consider both the findings and decide which conclusions are free of logic and logical and logical.

Statement: Some stems are root. All root plants are.

Conclusion:

- i) There are some stem plants.
- ii) Some plants are root.

Select the correct option from the given options.

- (A) Only conclusions i is logical
- (B) Only conclusions ii is rational
- (C) or conclusions i or ii is rational
- (D) nor the conclusions ii is rational
- (E) both the conclusions i and ii are rational

- (A)  C - (Alternative 3)
- (B)  **E - (Alternative 4)**
- (C)  B - (Alternative 2)
- (D)  A - (Alternative 1)

In this question, a passage and a statement related to it have been given. Read the passage carefully and criticize the statement based on it.

India invites Chinese telecom giant Hyyai Technologies - a company which has been banned by calling America as a threat to its cyber security, and security and technology establishments expressed concern in Australia and New Zealand, from which 5G networks were created to participate in 5G tests. is. Although there have been some changes in Indian conditions in the last

decade but still there is not enough security measures in the telecom sector in India, which is the backbone of the digital economy. The only thing that has changed is the technology standard - earlier it was in the form of fear of using Chinese 3G devices in spyware and now Chinese 5G devices.

To address these alleged safety hazards, experts have suggested two ways that can be used by the government. First, establishment of infrastructure to test and identify the vulnerabilities of telecommunication equipment installed in the country. Second, developing the ability to build important hardware components in the country. Officials say that they have not been implemented in India so far. He also informed that the Department of Telecom had pledged to investigate the safety devices in 2013. Imports of China's telecommunications equipment increased from \$ 1.3 billion in 2014 to \$ 9.4 billion in 2017, along with various mobile phone accessories.

Statement: Australia imposed a ban on hawaii technology which used to be a threat to cyber security in the use of this technology in the country.

Select the appropriate from the given options

- A - Statement is completely true
- B - The statement is possibly true
- C - the statement can not be determined
- D - Statement is completely false

In this question, a passage and a statement related to it have been given. Read carefully the verse and review the statement based on it.

At a ceremony, the miners of Prosper-Hanil mine of Germany provided a piece of black coal to their country's President Frank-Walter Steinmier during the announcement of closure of the country's last black coal mine. However, this does not mean that Germany will be completely coal-free: In Germany, import of cheap foreign coal will continue. Coal-free means only that there will be no coal drilling, blasting, howling, collection and transportation, which is a major factor in environmental pollution, but through the export of coal, Europe has emerged as the world's economic power. But with its closure, the burden of pollution on the European nations will be very low. Apart from this, the closure of coal shaft in Germany means lignite, Or there is also the closure of mining of brown coal. Lignite is considered to be very messy than black coal, but its mining is cheap. Germany's decision to close the last coal mine is to meet its carbonation goals. Although such developments are positive news ---- Closing the mining of coal in a phased manner can limit global warming to a critical level of 1.5 ° C. The use of coal in the world is not soon to be overcome because many parts of the world, such as India and China, still need cheap fuel to promote their economic growth. Can be limited to a significant level of 5 degrees Celsius. The use of coal in the world is not soon to be overcome because many parts of the world, such as India and China, still need cheap fuel to promote their economic growth. Can be limited to a significant level of 5 degrees Celsius. The use of coal in the world is not soon to be overcome because many parts of the world, such as India and China, still need cheap fuel to promote their economic growth.

Statement: Germany has stopped mining of lignite coal.

Select the correct statement from the given statements

## Question No.75

1.00

Bookmark 

इस प्रश्न में एक गद्यांश और उससे सम्बंधित एक कथन दिया गया है। गद्यांश को ध्यान पूर्वक पढ़िए और उसके आधार पर कथन की समीक्षा कीजिये।

एक समारोह में जर्मनी की प्रॉस्पेर-हनील खदान के खनिकों ने देश की आखिरी काले कोयले की खान को बंद करने की घोषणा के दौरान अपने देश के राष्ट्रपति फ्रैंक-वाल्टर स्टीनमीयर को काले कोयले का एक टुकड़ा प्रदान किया। हालांकि, इसका मतलब यह नहीं है कि जर्मनी पूरी तरह से कोयला मुक्त हो जाएगा: जर्मनी में सस्ते विदेशी कोयले का आयात होता रहेगा। कोयला मुक्त से तात्पर्य केवल इतना है कि यहाँ कोयले की ड्रिलिंग, ब्लास्टिंग, हाउलिंग, कलेक्शन और ट्रांसपोर्टेशन नहीं होगा जोकि पर्यावरणीय प्रदूषण के प्रमुख कारक है परंतु कोयले के निर्यात के माध्यम से ही यूरोप विश्व की आर्थिक शक्ति के रूप में उभरा था। लेकिन इसके बंद होने से यूरोपीय राष्ट्रों पर प्रदूषण का बोझ बहुत कम होगा। इसके अलावा, जर्मनी में कोयले के शाफ्ट खनन के बंद होने का मतलब वहां होने वाले लिग्नाइट, या भूरे कोयले के खनन का बंद होना भी है। लिग्नाइट को काले कोयले की तुलना में बहुत अधिक गन्दा माना जाता है लेकिन इसका खनन सस्ता पड़ता है। जर्मनी द्वारा अंतिम कोयला खान को बंद करने का निर्णय इसे अपने डीकार्बोनाइजेशन लक्ष्यों को पूरा करना है। हालांकि ऐसे घटनाक्रम सकारात्मक खबरें हैं ---- कोयले के खनन को चरणबद्ध तरीके से बंद करने से ग्लोबल वार्मिंग को 1.5 डिग्री सेल्सियस के महत्वपूर्ण स्तर तक सीमित किया जा सकता है।

दुनिया में कोयले के उपयोग की लत जल्द दूर होने वाली नहीं है क्योंकि दुनिया के कई हिस्सों जैसे भारत और चीन को अभी भी उनके आर्थिक विकास को बढ़ावा देने के लिए सस्ते ईंधन की जरूरत है।

कथन: वैश्विक तापमान को एक निश्चित सीमा तक रोकने के लिए कोयले का उत्पादन रोकना बहुत महत्वपूर्ण है।

दिए गए कथनों में से सही का चयन करें

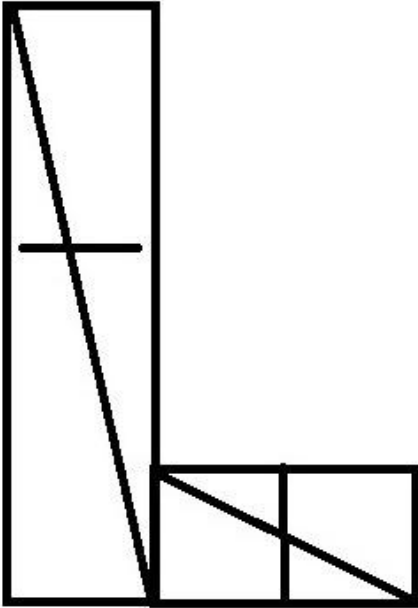

- A. कथन निश्चित रूप से सत्य है।
  - B. कथन संभावित रूप से सत्य है।
  - C. कथन निर्धारित नहीं किया जा सकता है
  - D. कथन निश्चित रूप से असत्य है।
- (A)  **A - (Alternative 1)**
- (B)  C - (Alternative 3)
