In this question, a statement and the two conclusions related to it are given in the form of i and ii, assuming that the things given in the statements are true, to determine which conclusions are logical in relation to the statements?

Statement: Company X has temporarily stopped manufacturing its product.

Conclusion:

- i) The product of company X is in demand.  
 ii) Production is closed due to machine defect.

Choose the right one from the following options.

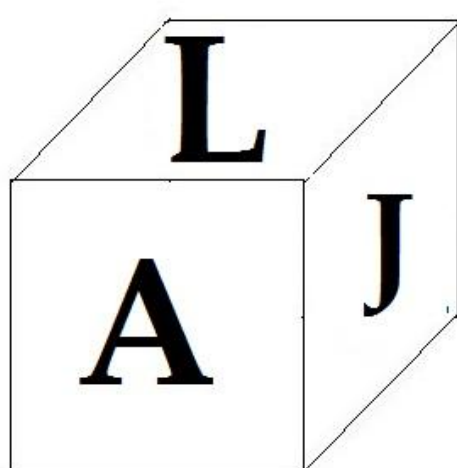

- (A) The only i conclusion is correct.  
 (B) Only the ii conclusion is correct.  
 (C) either i conclusion or ii is correct.  
 (D) neither i conclusion nor ii is correct.  
 (E) i and ii both conclusions are correct.  
 (A)  A - (Alternative 1)  
 (B)  C - (Alternative 3)

A question has been given in this question and a statement related to it. Read the passage carefully and review the statement based on it.

India invites Chinese telecom giant Huyyai Technologies - a company which has been banned by calling America as a threat to its cyber security, and security and technology establishments expressed concern in Australia and New Zealand, from which 5G networks were created to participate in 5G tests. is. Although there have been some changes in Indian conditions in the last decade but still there is not enough security measures in the telecom sector in India, which is the backbone of the digital economy. The only thing that has changed is the technology standard - earlier it was in the form of fear of using Chinese 3G devices in spyware and now Chinese 5G devices.

To address these alleged safety hazards, experts have suggested two ways that can be used by the government. First, establishment of infrastructure to test and identify the vulnerabilities of telecommunication equipment installed in the country. Second, developing the ability to build important hardware components in the country. Officials say that they have not been implemented in India so far. He also informed that the Department of Telecom had pledged to investigate the safety devices in 2013. Imports of China's telecommunications equipment increased from \$ 1.3 billion in 2014 to \$ 9.4 billion in 2017, along with various mobile phone accessories.

Statement. Once India was afraid of Chinese equipment and now she is afraid of Chinese 5G equipment.

- A. The statement is definitely true.
- B. The statement is probably true.
- C. Statement can not be determined
- D. Statement is definitely wrong.

- (A)  B - (Alternative 2)
- (B)  C - (Alternative 3)
- (C)  A - (Alternative 1)
