

Exam Date	12/10/2023
Exam Time	4:30 PM - 6:30 PM
Subject	Stenographer Grade C and D Examination 2023

Section : General Intelligence and Reasoning

Q.1 Select the correct combination of mathematical signs that can sequentially replace ‘%’ and balance the following equation.
 $35 \% 4 \% 12 \% 3 \% 6 \% 5 \% 5$

- Ans  1. +, -, ÷, ×, =, +
 2. -, +, ×, =, ÷, +
 3. -, +, ÷, ×, =, +
 4. -, +, ÷, =, ×, +

Question ID : 264330129587

Option 1 ID : 264330507716

Option 2 ID : 264330507714

Option 3 ID : 264330507717

Option 4 ID : 264330507715

Status : Answered

Chosen Option : 4

Q.2 Seven people, A, B, C, D, E, F and G, are sitting in a straight row, facing north. Only 2 people sit to the left of E. G is an immediate neighbour of E. B sits to the immediate right of F. Only 3 people sit between G and F. A sits to the immediate left of D.

Who sits to the immediate right of E?

- Ans  1. G
 2. D
 3. F
 4. A

Question ID : 264330144960

Option 1 ID : 264330568095

Option 2 ID : 264330568097

Option 3 ID : 264330568098

Option 4 ID : 264330568096

Status : Answered

Chosen Option : 4

Q.3 Select the option that is related to the third word in the same way as the second word is related to the first word.

(The words must be considered as meaningful English words and must not be related to each other based on the number of letters/number of consonants/vowels in the word.)

Cricket : Bat :: Tennis : ?

- Ans
- ☒ 1. Javelin
 - ☒ 2. Pole
 - ☒ 3. Racquet
 - ☒ 4. Net

Question ID : 26433087286

Option 1 ID : 264330342783

Option 2 ID : 264330342784

Option 3 ID : 264330342782

Option 4 ID : 264330342781

Status : Answered

Chosen Option : 3

Q.4 Select the figure from among the given options that can replace the question mark (?) in the following series.

Ans

☒ 1.

☒ 2.

☒ 3.

☒ 4.

Question ID : 26433087164

Option 1 ID : 264330342293

Option 2 ID : 264330342295

Option 3 ID : 264330342294

Option 4 ID : 264330342296

Status : Answered

Chosen Option : 2

Q.5 Select the option that is related to the sixth number in the same way as the first number is related to the second number and the third number is related to the fourth number.

1444 : 38 :: 1225 : 35 :: ? : 47

- Ans  1. 2162
 2. 1369
 3. 1024
 4. 2209

Question ID : 26433087210
Option 1 ID : 264330342480
Option 2 ID : 264330342477
Option 3 ID : 264330342478
Option 4 ID : 264330342479
Status : Answered
Chosen Option : 4

Q.6 Select the number from among the given options that can replace the question mark (?) in the following series.
23, 34, 45, 56, 67, ?

- Ans  1. 79
 2. 76
 3. 77
 4. 78

Question ID : 264330112657
Option 1 ID : 264330442716
Option 2 ID : 264330442713
Option 3 ID : 264330442714
Option 4 ID : 264330442715
Status : Answered
Chosen Option : 4

Q.7 Select the option that is related to the sixth number in the same way as the first number is related to the second number and the third number is related to the fourth number.

133 : 7 :: 247 : 13 :: ? : 19

- Ans  1. 242
 2. 399
 3. 266
 4. 361

Question ID : 26433087209
Option 1 ID : 264330342474
Option 2 ID : 264330342476

Chosen Option : --

Q.13 Two statements are given, followed by two conclusions numbered I and II. Assuming the statements to be true, even if they seem to be at variance with commonly known facts, decide which of the conclusions logically follow(s) from the statements.

Statements:

Some pianos are guitars.

All guitars are flutes.

Conclusion:

I)Some pianos are flute.

II)No guitar is a piano.

Ans ☒ 1. Both Conclusions I and II follow.

☒ 2. Only Conclusion I follows

☒ 3. Neither Conclusion I nor II follows.

☒ 4. Only Conclusion II follows.

Question ID : 26433067709

Option 1 ID : 264330265350

Status : Answered

Chosen Option : 2

Q.15 Three statements are given followed by three conclusions numbered I, II and III.

Assuming the statements to be true, even if they seem to be at variance with commonly known facts, decide which of the conclusions logically follow(s) from the statements.

Statements:

All Barbies are Snow-whites.

Some Barbies are Ariels.

Some Ariels are Doraemons.

Conclusions:

I. Some Doraemons are Snow-whites.

II. Some Barbies are Doraemons.

III. Some Ariels are Snow-whites.

Ans ☒ 1. Only conclusions II and III follow

☒ 2. Only conclusion III follows

☒ 3. Only conclusions I and III follow

☒ 4. All the conclusions follow

Q.26 Select the set in which the numbers are related in the same way as are the numbers of the given sets.

(NOTE : Operations should be performed on the whole numbers, without breaking down the numbers into its constituent digits. E.g. 13 – Operations on 13 such as adding /deleting /multiplying etc. to 13 can be performed. Breaking down 13 into 1 and 3 and then performing mathematical operations on 1 and 3 is NOT allowed)

(100, 30, 10)

(250, 60, 70)

Ans  1. (700, 220, 40)

 2. (240, 187, 104)

 3. (209, 122, 109)

 4. (310, 198, 30)

Status : Answered

Chosen Option : 3

Comprehension:

Read the given passage and answer the questions that follow.

An important skill we all need to learn, in my opinion, is not to have preconceived notions about anything. Having said that I also know how difficult a thing it can be!

To drop the burden of preconceived notions, we need to unlearn a few things, which again is a tough thing to do. Very early on, we start cramming our brains with ideas and opinions.

These notions might have entered our mind from our family, parents, society or some of the books we might have read. We need to understand the fact that everything in life keeps changing and we just cannot stick to something only because that thought might have entered our brains years back!

I always thought ice-creams or chilled items were bad for a child having a cold or a running nose. I was terribly surprised when a GP in London told my four-year-old grandson with a cold to go ahead and have a popsicle. Later I found out that there is no scientific evidence to prove that an ice-cream or a popsicle can aggravate a cold!

SubQuestion No : 86

Q.86 Select the most appropriate theme of the passage.

- Ans ☒ 1. The significance of seeking professional advice
☒ 2. The need for evidence-based decision making
☒ 3. The influence of personal experiences on our beliefs
☒ 4. The role of scientific evidence in debunking misconceptions

Question ID : 264330170220

Comprehension:

Read the given passage and answer the questions that follow.

An important skill we all need to learn, in my opinion, is not to have preconceived notions about anything. Having said that I also know how difficult a thing it can be!

To drop the burden of preconceived notions, we need to unlearn a few things, which again is a tough thing to do. Very early on, we start cramming our brains with ideas and opinions. These notions might have entered our mind from our family, parents, society or some of the books we might have read. We need to understand the fact that everything in life keeps changing and we just cannot stick to something only because that thought might have entered our brains years back!

I always thought ice-creams or chilled items were bad for a child having a cold or a running nose. I was terribly surprised when a GP in London told my four-year-old grandson with a cold to go ahead and have a popsicle. Later I found out that there is no scientific evidence to prove that an ice-cream or a popsicle can aggravate a cold!

SubQuestion No : 88

Q.88 Select the most appropriate title for the given passage.

- Ans
- ☒ 1. Evaluating Our Superstitions
 - ☒ 2. Challenging the Thought Process
 - ☒ 3. Unlearning Preconceived Notions
 - ☒ 4. The Power of Our Mind

Chosen Option : 2

Comprehension:

Read the given passage and answer the questions that follow.

The term 'personalised learning' has been in vogue for a long time. Earlier, it referred to a one-to-one tutoring system, mostly for the privileged. Today, it refers to learning that prioritises an individual student's requirements and uses flexible instructional practices in terms of content, pace and materials. Learning need not be linear as, sometimes, learners may have to take a step back if not equipped with the necessary schemata to understand the content. The entire learning process becomes student-centric and the students are encouraged to design their own learning pathways.

Artificial Intelligence (AI) and Data Analytics play a major role in online and hybrid learning platforms. Globally, HEIs are introducing programmes where AI provides the platform to launch personalised learning. Technology provides a variety of materials in various formats to suit different students and monitor and assess their progress. However, it does not undermine the teacher's role. There are areas such as communication and collaborative skills, and emotional intelligence, which require human intervention. Therefore, the role of teachers in personalised learning remains as important as it is in traditional learning. AI can never replace educators; it can only enhance and support personalised learning by providing automated tasks, assessment platforms and feedback.

Many paths of study emerge and all ultimately merge with the curriculum's common learning outcome. Thus, the pattern of education becomes student-centric. This systemic change gives a new dimension to the teaching-learning process where teaching becomes counseling, and the teacher becomes a mentor. The students are motivated to take control of their learning and become autonomous.

SubQuestion No : 91

Q.91 Select an appropriate title for the given passage.

- Ans**
- ☒ 1. Personalised Learning Aims at Teachers' Strength
 - ☒ 2. Technology Formats to Assess Students' Intellect
 - ☒ 3. The Latest Trends of Content
 - ☒ 4. Student-Centric Pedagogy Fosters Learner Autonomy

Comprehension:

Read the given passage and answer the questions that follow.

Emma had always been a driven and ambitious student. She had a passion for science and medicine, and her dream was to become a doctor. She worked tirelessly throughout her college years, studying long hours and sacrificing her social life in pursuit of her goals. Despite the challenges, Emma was determined to succeed and make a difference in the world.

One fateful evening, while driving home from a late-night study session, Emma's life changed forever. A car came out of nowhere and collided with her vehicle, sending it spinning out of control. When the dust settled, Emma found herself trapped inside the wreckage, unable to move or even scream for help. The accident had left her with a broken leg and several other injuries. Emma was in shock and couldn't believe what had happened to her. She was devastated to think that all her hard work and dedication had been for nothing. She would now have to put her dreams on hold and spend months recovering from her injuries.

As Emma lay in the hospital, she was consumed with anger and frustration. She couldn't understand why this had happened to her, why her life had been turned upside down in an instant. She felt alone and helpless, unable to find any sense of purpose or meaning in her suffering. But as the days turned into weeks, Emma began to notice something different about the people around her. She met a nurse named Mary, who had been working at the hospital for over twenty years. Mary had a kind and caring personality, which Emma found comforting during her stay. She also met a patient named John, who had been in a car accident similar to Emma's. John had suffered a spinal cord injury and was paralysed from the waist down.

Despite his condition, John was always positive and never gave up hope.

Emma soon realised that the accident had brought her into contact with these amazing people and had given her the opportunity to learn from them. She learned from Mary how to be kind and caring towards others, even in difficult situations. She learned from John how to be positive and never give up, even when things seem impossible. After several months of recovery, Emma was able to walk again, but she still faced many challenges. She had to work extra hard to catch up with her studies and she had to adjust to life with a permanent scar on her leg. However, she realised that the accident had taught her valuable lessons that would help her become a better doctor. She had learned to empathise with her patients and to be grateful for her own health.

Years later, Emma became a successful doctor and was known for her compassion and empathy towards her patients. She often thought back to the accident and realised that it had been a turning point in her life. It had forced her to slow down and appreciate the small things in life. She was grateful for the people she had met during her recovery and realised that without the accident, she may never have met them. This story reflects that whatever happens, it happens for good. Even though the accident had seemed like a setback for Emma, it had brought her into contact with amazing people and taught her valuable lessons that she would carry with her for the rest of her life. Sometimes, the things we think are obstacles are actually opportunities in disguise. It is up to us to find the silver lining and make the best of every situation.

She met a nurse named Mary, who had been working at the hospital for over twenty years. Mary had a kind and caring personality, which Emma found comforting during her stay. She also met a patient named John, who had been in a car accident similar to Emma's. John had suffered a spinal cord injury and was paralysed from the waist down.

Despite his condition, John was always positive and never gave up hope.

Emma soon realised that the accident had brought her into contact with these amazing people and had given her the opportunity to learn from them. She learned from Mary how to be kind and caring towards others, even in difficult situations. She learned from John how to be positive and never give up, even when things seem impossible. After several months of recovery, Emma was able to walk again, but she still faced many challenges. She had to work extra hard to catch up with her studies and she had to adjust to life with a permanent scar on her leg. However, she realised that the accident had taught her valuable lessons that would help her become a better doctor. She had learned to empathise with her patients and to be grateful for her own health.

Years later, Emma became a successful doctor and was known for her compassion and empathy towards her patients. She often thought back to the accident and realised that it had been a turning point in her life. It had forced her to slow down and appreciate the small things in life. She was grateful for the people she had met during her recovery and realised that without the accident, she may never have met them. This story reflects that whatever happens, it happens for good. Even though the accident had seemed like a setback for Emma, it had brought her into contact with amazing people and taught her valuable lessons that she would carry with her for the rest of her life. Sometimes, the things we think are obstacles are actually opportunities in disguise. It is up to us to find the silver lining and make the best of every situation.

SubQuestion No : 100

Q.100 What is the central theme of the story?

- Ans
- ☐ 1. The value of hard work and dedication in achieving one's dreams
 - ☐ 2. The importance of staying positive in difficult situations
 - ☐ 3. The challenges of recovering from a serious injury
 - ☒ 4. The idea that obstacles can present unexpected opportunities
